

## **To All Members LL1681 YYC and YEG**

As you are probably aware, the CAW will possibly be going on strike June 14. The IAM supports the CAW's efforts to finally have Air Canada properly compensate their employees with realistic improvements to their quality of life and working conditions, rather than the pittance this corporation has handed out to us in the last 10 years in the form of worthless company shares and free C1 passes for a privileged few.

We are required to come to work and cross their picket lines **BUT** the company must provide **SAFE** passage into the workplace in the form of Police or Security at every picket line you must cross.

If you fail to see such security and feel unsafe, I am advising you to contact your manager and advise them of the situation and wait until such time that safe passage is available.

Also if security is present and there is an unusual delay in getting into work because of a picket line, you need to contact the company to advise them of this delay.

Company Phone Numbers:

Stoc	403-221-2549
Parking lot dispatch for Ride in	403-221-2507
Warren Tiede-(CARGO ONLY)	403-221-2648
Nando Volpe	403-835-0743

I encourage you to support the CAW and join them on their picket line, but remember, it must not be on Company Time, and YES you can wear your Air Canada or Servisair uniform.

In Solidarity  
Grant Hornsby
