WestJet Load Control Negotiations

Update January 11, 2024

January 11, 2024

Sisters and Brothers of WestJet Load Control,

This past week your negotiations committee met with the company regarding monetary issues. Your Union and the Company are clearly far apart.

As you all stated in your surveys, what is important, we plan to exhaust all avenues so that we can try and achieve a fair and equitable deal that meets the needs of the membership as a whole.

We closed this last round of meetings with an up-to-date information request from the company so that we may cost an accurate proposal to pass that we believe to fair for all parties involved.

At this point there are no details to share of the agreed too items, if there is we will share via bulletin or townhall.

Your Negotiations Committee,

Kevin Timms
